

All you need to know about our part-time CYBER SECURITY MASTERS

Delivered in Central London

- + Gain a critical understanding of governance and assurance, along with critical technology risk practices vital to operate in today's volatile cyber security market
- + Learn how to handle security incidents, identify threats and determine methods to minimise them
- + Delivered over 15 weekend sessions spread over the two year programme
- + Designed to allow you to fit your studies around your working life, this programme will also give you the opportunity to apply your knowledge immediately to your workplace
